THE HONGKONG DISPENSARY,
Hongkong, 5th April, 1889.

The Daily Press.

HONKOKA, APRIL 15TH, 1889.

H.M.S. Satellite, Captain Nosham, left Yokohama on the 2nd inst., for Korea.

Mr. A. J. Basco, Jr., has been provisionally
recognised as Consul for France at Macao.

A severe shock of earthquake was experienced
in Yokohama, about 1.30 a.m. on the 23rd March.

The U. S. S. Omaha, Captain McMurtry, or-
dinated at Yokohama from Kobe on the 27th March.

It is notified in the Gazette that Easter Mon-
day will be observed as a holiday in the Govern-
ment offices.

The Pacific Mail steamer City of Peking left
San Francisco on the 28th March for Yokohama
and Hongkong.

The Daily News learns that some of the vessels
of the Central China Squadron are to proceed
North to join the Polyang squadron in certain
manoeuvres.

The Daily News hears that it is not impossible
that before long the German mail will be made
a fortnightly one.

The Agents (Messrs. Butterfield and Swire)
inform us that the O. S. S. Co.'s steamer *Crescent*,
from Liverpool, left Singapore on the 13th inst.
for China.

There was heavy fall of snow at the commencement
of the month along the coast of the Gulf of
Pechili, and the hills near Chefoo were covered
with snow on the 4th instant.

The closing meeting of the session of the
Hongkong Literary Society will be held this
evening, when the Rev. Dr. Chalmers will give
an address on "Lecturing Classes."

The Agents (Messrs. Melchers & Co.) inform
us that the Norddeutscher Lloyd steamer
Bremen, with the German mail of the 19th inst.,
left Singapore on Saturday for this port.

An Australian telegram, dated London, 21st
March, says it is reported that Sir John Pope
Hennessy, Insults, retiring from the Colonial
Service with a view to entering the House of
Commons.

The two men charged with being connected
with a series of robberies which have lately taken
place at Macao, Brazil & Co. were brought be-
fore the Magistrate again on Saturday, but were
discharged for want of evidence.

A farewell ball was given on the 24th March
by the British residents of Yokohama to the
Hon. Le Poer Trench, who left for England on
the 1st last. On the 27th March Mr. Trench
was entertained at a farewell banquet by the
members of the Tokyo Club.

The March number of the *Regimental News*
contains "Some further impressions of Hong-
kong," in which the condition of Queen's Road
naturally comes in for some attention. The state
of that thoroughfare could not fail in wet weather
to attract the notice of newcomers.

The N.C. Daily News says that the latest
news concerning the *Kai Ling* is that the negotiations
for the sale of the steamer have fallen through,
and it is still the intention of her
owners to carry out the voyage to Chunking.
The state of that thoroughfare could not fail in wet weather
to attract the notice of newcomers.

A correspondent of the *Mercury* hears that
the Empress-Dowager is in favour of the Chin-
king-Tungchow line, and that the Vicereyn is in
favour of the Tientsin-Tungchow line. This
may be causing the present difficulties. Either will
have to be done a foreign capital; the Chin-
king-Tungchow line will cost a great deal, but will
pay much better.

Telegraphic information has been received at
Kobe, says the *Hiroko News*, of a great fire
in Chioho, which destroyed thirty thousand
packets of tea, about two-thirds of which were
the produce of Japan. If this had happened
shortly after the opening of the tea season it
would have caused more excitement in the local
market than is possible at present.

The stamp revenue for the first quarter of the
present year shows a falling off of \$6,028 as
compared with the same quarter of last year.
There was a decrease of \$6,439 under this head
of "conveyance or assignment," and of \$3,846
under the head of "probate or letters of admis-
sion." The principal increases were \$1,667 for
broker's notes, and \$3,720 for transfer of shares.

The Agents of the German steamer *Chow-
shoo* received a telegram from Swatow on
Saturday making enquiries about her. The
steamer left here on Wednesday morning last
and is up to date on Friday evening and not arrived.
The *Hiroko*, which arrived here yesterday
from the Coast ports, reports, however, the *Chow-shoo* as in port at Swatow on the 13th instant.

An attack by Chinese on the Tongkienese
frontier village of Monkey was made on the
night of the 20th March. Since the fighting in
December last the village has been maintained
by a party of rebels, and a large party
had kept up. The attack was suddenly
and the rebels retired to the neighbouring Chi-
nese village of Dong-hui, where they were safe
from pursuit.

The *Hiroko* says that tigers are a terror to
the natives in the northern country near Amoy.
Last night the chief of the police, Mr. (Mr. R. Bruce) & Co. killed
one weighing over 200 lbs.; and another time
when he was out shooting he unexpectedly came
right upon a tiger, which gave a roar that shook
the trees. He fled, and it is said he has not since
ventured into a tiger's den to steal its whelps.
Other members of the household also complain
of tigers, and the tiger-catchers, mentioned in
Macao on 24th March, have been engaged in
difficulties, under which these workmen have
executed, they will be completed with the
prescribed time, and H. E. Chow was able
during his last visit to the works, to satisfy
himself they were progressing very favourably.

The Australian Transcontinental Railway is
now spreading. The South Australian Commis-
sioners of Railways have decided to have a de-
tailed survey made from the Angle Pole to the
Burt, 350 miles from Adelaide. The Port Dar-
win paper says that when this work is completed,
it will make a total length of 350 miles from
Adelaide, and will be open for traffic between
the Burt and Pine Creek, will only be about 550

Our Kobe contemporary, the *Hiroko News*,
changed hands at the close of last month, and is
now owned by a syndicate of leading business people
of the port. The past part of the steamer it was
brought to by Messrs. Walsh and Jackson, who
under the management of the former, and for a
number of years Mr. J. Creagh has occupied the
editorial chair. Both, we believe, retire from
their positions under the new proprietors.

According to the *Ha-pao*, the foreign mining
engineer sent by the Chinese Government to
Mongolia reports favourable of the prospects of
silver mining in the part of the country which
he has visited. The metal is said to be of good
quality, and its value has been estimated at a small
mill will soon be erected, and a smelting ap-
paratus will soon be brought thither. There
are two foreigners and 200 Chinese employed
at these mines up to date.

There is promise of occurrences, says the
Japan Gazette, which will relieve the monotony
of life in Japan when the elections come round.
The recent serious political disturbances, and
the trials of the *Yukio* and *Yukio* cases, have
caused a considerable stir on the 2nd inst. at Osaka.
On that day a political meeting should have been held
but instead a riot took place. Chins and tea pots
were whisked about merrily and several persons
were injured. Arrests followed.

The *Shinto* says—On the 30th March
Sun Yu Governor of the province of Kwangsi,
memorialized the Throne on the backwardness
of the other provinces in sending their contribu-
tions to the treasury of this unfortunate province,
which is too poor to support itself without such
assistance. They now owe it about £2,000,000.
The Kwangsi treasury is in such straits, that
it may be compared to a man whose eyebrows
are on fire, and prompt relief is as necessary in
the one case in the other.

A Chinese paper says that on the 21st March
the President of the Board of Revenue and the
controller of the Imperial Household at Pe-
king, who have been discussing the cost of re-
storing the T'ien-tao Gate, came to the conclusion
that the sum of £1,000,000 would be required.

Whether the assistance of the Provincial
Governments will be called for to raise some of
this money, is not known. The wood contractors
are it said, sending agents to Kiangsu, Chia-
kiang, Kiangsi and other provinces to procure
the wood.

Says the *Japan Gazette*:—There is a prob-
ability that the day of foreign cement in Japan
is past. A Yokohama cement manufacturer and
dealer has discovered a stone called *mokure* in
Noto district which possesses remarkable qual-
ities. It is said to be of good quality, and
of the tests he has carried out are of good.
It is said that the cement will heat a weight of 400
lbs. to 500 lbs. per square em (about 12 in.). A
few days ago a specimen of the cement was for-
warded to the Commercial Department for in-
spection. Foreign cement is sold at about \$4.70
per barrel while the estimated sale price of the
cement under article is about \$2.50.

Says the *Japan Gazette*:—The only one of the
two American ships which reached its destination
is now in Edo waiting for a vessel to take him
home, and with his arrival there will end the
intrigue to secure a quasi-recognition by foreign
powers of the absolute independence of Korea
through the spurious expedient of embassies. Pak
Chung Yang, Envoy Extraordinary and Minister
Plenipotentiary for Korea—"as his card runs
does not appear to have succeeded in doing much
as yet in this matter." The Chinese Ambassador
at Edo has sent a note to invalidate Chinese
sovereignty over Korea, but all events have been
better off than his fellow-Envoy, for he managed
to see a good deal of the world, and they did not.

The Australian and New Zealand contributions to the League funds were heavy.

LONDON. 13th March.—The receipts of the League are confounded. It has not been considered doubtful whether they exceed £20,000.

At yesterday's sitting of The Times-Pearcey Committee Sir Richard Webster announced that the case for *The Times* was concluded.

Sir Charles Russell, leading counsel for Mr. Farnell, informed the court that he anticipated it would be necessary to call about 400 witnesses for the defense.

The judges, on the application of Sir Charles Pearcey, decided that Mr. William O'Brien, M.P., and Mr. Edward Harrington, M.P., who are both undergoing trial at the Old Bailey, should be released to enable them to prepare their defense the sooner; however, being conditions on their undertaking not to take part in any political agitation.

The court then adjourned until April 2.

MICHAEL DAVIDS is to give evidence before the Farnell Commission, and his examination is expected to occupy the Commission for at least ten days.

LONDON. 16th March.—Mr. C. S. Farnell, has subpoenaed the Earl of Carnarvon and Sir William Hurrell, Chancellor of the Exchequer in the last Gladstone Ministry, to give evidence in his defense before The Times-Pearcey Special Commission.

THE IRISH MARTYRS.

LONDON. 16th March.—Messrs. William O'Brien, T. Harrington, who have been imprisoned under the Irish Act, refuse to accept their release, which has been proffered them, as they object to the conditions on which the release is to be obtained.

THE EUROPEAN BEER CROP.

LONDON. 16th March.—Lich's estimate of the European beer sugar crop for the first months of the present campaign is 170,000 tons in excess of the supply for the similar term last year.

THE COAL SYNDICATE.

LONDON. 16th March.—The British coal owners are largely supporting the proposed coal capitation, which was recently announced with a capital of £100,000,000.

NAUGARITION AT THE IMPERIAL INSTITUTE.

LONDON. 16th March.—A grand banquet to celebrate the inauguration of the Imperial Institute will be held last night, H.R.H. the Prince of Wales presiding.

Among those present were Sir Samuel Hoare (Agent-General for New South Wales), Mr. T. Archibald (Agent-General for Queensland), Sir F. Dillon Bell (Agent-General for New Zealand), Sir George F. Bowes (Agent-General for Victoria), Sir General F. Bowes, Mr. E. N. C. Braddon (Agent-General for Tasmania), Lord Brassey, the Right Hon. Hugh Childers, Sir John Codr, Mr. Dugdale, Sir B. B. G. G. M. C. A. Goodrich, Mr. Henricus Heaton, M.P., Sir Robert G. W. Herbert (Agent-General for Northern Ireland), Mr. James Mills (New Zealand), Sir Charles Nicholson, Mr. Samuel (Sydney), Lord Ward, Sir Edwin Smith (Adelaide), Mr. Horace Vizard, M.P., Baron Henry de Worms (Under-Secretary of State for Colonial Office), Mr. Samuel Yardley, Mr. Ven, Sir Arthur Blyth (Agent-General for South Australia), and Mr. Randolph C. Want. Sir Arthur Blyth proposed the toast of "The Empire."

The Prince of Wales, in responding, regretted that he had been unable to visit Australia, but said that it was the duty of every statesman to sit the British colonies in their respective territories in South Africa. Portugal has claimed a large portion of the coast of 100,000 square miles, extending across Africa from Mozambique on the Indian Ocean to Luanda on the Atlantic. This vast territory, which she has done nothing to develop beyond partially occupying the sea coast and threatening to harass the British missionaries on Lake Nyassa, stretches to the boundaries of the Congo State to below the Zambezi, and includes the country now in dispute!

MISCELLANEOUS ITEMS.

LONDON. 16th March.—Lord Tennyson, the Post Laureate, is failing in health, and proceeds to Madeira to benefit by the climate.

He has been received that further fighting has taken place at Hayti between the Republicans and the rebels. The conflict is said to be confined with great severity to Port-au-Prince, where the rebels, with a strong adverse current, weather with rain more or less.
